

## REQUEST FOR PROPOSALS (RFP) FOR EXTERNAL AUDIT SERVICES

### 1) INTRODUCTION

International Rice Research Institute, an international, not-for-profit research organization, is seeking qualified independent auditors, referred to as "Auditors", with extensive experience in auditing nonprofit organizations to conduct an external audit of its financial statements, as outlined in this Request for Proposal (RFP).

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS)<sup>1</sup>, as applicable, and in compliance with relevant national laws and regulations. The audit shall be conducted in accordance with International Standards on Auditing (ISA) or other applicable professional auditing standards.

### 2) WHO WE ARE

The International Rice Research Institute (IRRI) is an international independent, not-for-profit, research and educational institute, founded in 1960 by the Ford and Rockefeller foundations with the support from the Philippine government to undertake basic research on the rice plant and applied research on all phases of rice production, management, distribution and utilization, with the objective of attaining nutritive and economic advantage and benefit for the people of Asia and other major rice-growing areas. IRRI is also one of the 15 nonprofit international research centers supported, in part, by members of the Consultative Group on international Agricultural Research (CGIAR), a global partnership that unites international organizations engaged in research on food security.

The Institute's major facilities are in Los Baños, Laguna, with an administrative office in Makati City in the Philippines. It maintains country offices in Bangladesh, Burundi, Cambodia, China, India, Indonesia, Kenya, Laos, Mozambique, Myanmar, Nepal, South Korea, Tanzania, Thailand and Vietnam.

The Institute was first conferred the status of an international organization in the Philippines under Presidential Decree (PD) No. 1620. On May 19, 1995, a multi-lateral agreement (1995 Agreement) recognizing the status of the Institute as an international organization was signed by representatives of nineteen (19) countries, including the Philippines. The 1995 Agreement allows the Institute to have juridical status to more effectively pursue its international collaborative activities in rice research and training. Pursuant to the 1995 Agreement, the Institute and the Government of the Republic of the Philippines entered a Headquarters (HQ) Agreement, which was ratified by the Philippine President on May 23, 2006, and concurred by the Philippine Senate on April 28, 2008. The HQ Agreement took effect on May 14, 2008.

IRRI's Financial Statements and the Report of Independent Auditors for the year ended 31 December 2024 are available in the attached document.
